DON'T ACCEPT IMITATIONS

There is only one *Area Development* magazine – the original – which continues to successfully serve the advertising needs of North America's economic developers as it has for more than 26 years.

There are many competitors, some with similar names. But it takes more than a name and a few claims to compete with the industry's Number-One rated publication.

So, be sure to get the most for your dollar. Schedule your advertising in the original and acknowledged leader–*Area Development.*
